IV. BMW SPORTS TROPHY DRIVERS' COMPETITION

a) Points

The scoring period for the 2022/23 season, in which results are recorded and points can be scored in the racing events and series listed in point III., runs from 22nd October 2022 to 5th November 2023. The number of points scored is determined by the position of the participant in his/her respective class, in which he/she competes with a BMW racing car. If the starting field at the event is not divided into classes in the official result, the overall classification in the official result applies. As classes count all classes explicitly defined by the organizer, in which there is a classification.

The racing series and events listed in point III. are divided into categories A, B, C and D. Points for places 1 to 10 are awarded according to these categories. Full points are awarded if ten or more cars compete in the respective class or respective overall classification. Should the number of starters be fewer, the points awarded are reduced accordingly.

If a participant starts in multiple classes at a race event, only the result that earns the participant the greatest number of points is counted. As a rule of thumb: a driver can only score once per race. Points cannot be accumulated.

The organiser reserves the right to amend the aforementioned points systems for categories A, B, C and D at any time and without specifying reasons. This so-called "Balance of Points" is intended to help guarantee equal opportunity among the participants and to allow for possible changes in the weighting of racing series and events.

At events held in the form of two or more races over the course of the race weekend, the results of all the races count, without exception.

If one of the racing events listed under point III. belongs to a championship and if the racing event is also listed as an individual event, the points classification giving the participant the highest number of points for his participation counts towards the 2022/2023 scoring period.

Any driver winning the drivers' championship in one of the racing series as mentioned in Article III. receives bonus points equal to the number of points awarded for two race victories in his/her respective category, provided at least four races are contested in the series by the time the title is awarded. An exception is the NLS. Championship points are granted only for the overall winner here. Regarding the determination of scores according to the scoring system in each category the number of participants in the last race is relevant.

A further exception is the BMW M2 Racing Cup NLS (listed under III.) for those participants who win both the overall standings in the Cup and the overall standings in the NLS, in this case only the bonus that earns the most points will be awarded. In this case, scored premiums/points cannot be accumulated.

During the scoring period, the organiser records all the participant's results eligible for points in the BMW Sports Trophy, provided they are clearly identifiable and verifiable using the official results list. The resulting points are added together and can be viewed in the online portal for the BMW Sports Trophy Drivers' Competition at <https://www.bmw-sports-trophy.com>.

A maximum of his highest 25 individual points paying results (excluding bonus points) will be counted by each driver. The points rankings of all participants at the end of the scoring period determines the final result of the BMW Sports Trophy Drivers' Competition for the respective scoring period.

b) Prizes

The winner of the BMW Sports Trophy Drivers' Competition is the driver who gains the highest number of points in the current BMW Sports Trophy season. The 25 top-placed drivers will receive prize money. The amount of all the monetary prizes will be announced later in the season.

Prize money distribution:

If two or more drivers have the same scores, the driver with the highest number of individual victories, second places, etc. in all the events shall be awarded the higher final placing. If the drivers have achieved identical placings, the event categories in which the most points were gained will also be taken into consideration (order of priority: 1. A, 2. B, 3. C, 4. D). If the scores are still equal, the cash prizes will be added together and distributed equally to both drivers.

Any costs arising for the participant from his/her participation in the BMW Sports Trophy Drivers' Competition and his/her starts in the racing series are to be borne by the participant himself. The organiser bears no liability for the participant's journey to or from the race events.

V. BMW SPORTS TROPHY TEAM COMPETITION

a) Points

The scoring period for the 2022/23 season, in which results are recorded and points can be scored in the racing events and series listed in point III., runs from 22nd October 2022 to 5th November 2023. The number of points scored is determined in the same way as the BMW Sports Trophy Drivers' Competition, as specified in point IV a).

The individual results of a team's two most successful drivers across all classes, with two different cars per racing event, are included in the classification and added together. The most successful drivers are decided by the number of points scored for the BMW Sports Trophy Team Competition, not their positions. The results recorded must comply with the terms of participation of the BMW Sports Trophy Drivers' Competition.

Should a team appear more than once in the official results of a racing event (including under different team names), only the individual results of the two most successful drivers across all classes count. If a team starts in multiple classes at a race event, only the results that earn the participant the greatest number of points is counted. As a rule of thumb: a team can score a maximum of two sets of points per race. Points cannot be accumulated beyond this.

At events held in the form of two or more races over the course of the race weekend, the results of all the races count, without exception.

Any team winning the team championship in one of the racing series as mentioned in Article III. receives bonus points equal to the number of points awarded for two race victories in his/her respective category, provided at least four races are contested in the series by the time the title is awarded. Regarding the determination of scores according to the scoring system in each category the number of participants in the last race is relevant.

A further exception is the BMW M2 Racing Cup NLS (listed under III.) for those teams who win both the overall standings in the Cup and the overall standings in the NLS, in this case only the bonus that earns the most points will be awarded. In this case, scored premiums/points cannot be accumulated.

During the scoring period, the organiser records all the participating team's results eligible for points in the BMW Sports Trophy, provided they are clearly identifiable and verifiable using the official results lists. The resulting points are added together and can be viewed in the online portal for the BMW Sports Trophy Team Competition at <https://www.bmw-sports-trophy.com>. A maximum of its highest 50 individual points paying results (excluding bonus points) will be counted by each team.

The points rankings of all participants at the end of the scoring period determines the final results of the BMW Sports Trophy Team Competition for the respective scoring period. The organiser can only award points for results achieved by participants in the BMW Sports Trophy Team Competition if the organiser is aware of the explicit allocation of a team name in the official results of the respective racing event to the corresponding, participating team.

It is the responsibility of the participating team to provide evidence that the team name belongs to the team.

b) Prizes

The winner of the BMW Sports Trophy Team Competition is the team with the highest total score at the end of the current BMW Sports Trophy season. The top ten teams receive prize money in accordance with their ranking. The amount of all the monetary prizes will be announced later in the season.

Prize money distribution:

If two or more teams have the same scores, the team with the highest number of individual victories, second places, etc. at individual events shall be awarded the higher final placing. If the teams have achieved identical placings, the event categories in which the points were gained will also be taken into consideration (order of priority: 1. A, 2. B, 3. C, 4. D). If the scores are still equal, the prize money is added together and distributed equally to both teams.

Any costs arising for the participant from his/her participation in the BMW Sports Trophy Team Competition and his/her starts in the racing series are to be borne by the participant himself. The organiser bears no liability for the participant's journey to or from the race events.

VI. TAXES

In case the entrant's participation in the BMW Sports Trophy competitions results in any prize money recognition the amount will be paid after deduction of withholding taxes, levies, duties or administrative fees, if any, that must be withheld at source by BMW and paid to the responsible tax authority on behalf of the entrant due to legal requirements in accordance with applicable law and regulations.

The parties have sole responsibility to comply with respect to their own tax obligations and/or liabilities arising from their BMW Sports Trophy engagement. Should any loss, damage or any other disadvantage to either party arise from a breach of the other party's obligations or responsibilities under this clause then the party which is responsible for such loss, damage or any other disadvantage shall fully indemnify the other party.

VII. RISKS AND LIABILITY

There is a risk of damage being caused to the health of visitors to motorsport events. Participation in the BMW Sports Trophy and associated races is at participants' own risk. The organiser and their legal representatives and vicarious agents shall be liable for damages suffered by a participant only insofar as the damages were caused by the organiser, their legal representatives or vicarious agents wilfully or as a result of gross negligence.

This limitation of liability shall not apply for damages arising from injury to the life, body or health of the participant. Furthermore, it shall not apply in the event of the breach of fundamental duties, such as those imposed on the organiser with regard to purpose and content by these conditions, or those whose fulfilment enable the proper implementation of the BMW Sports Trophy and the adherence of which is relied on regularly and may be relied on by participants; this liability is limited to typical foreseeable damage.

VIII. INTELLECTUAL PROPERTY RIGHTS

By registering for the BMW Sports Trophy Drivers' Competition or BMW Sports Trophy Team Competition, the participant grants the organiser the rights to film and take images of BMW Sports Trophy races.

The participant grants the organiser spatially and temporarily unlimited rights to process any images or films taken of the participant and to use these for general reporting and PR, advertising purposes, exhibition posters, invitations, exhibitions, e-cards, screen savers, calendars, catalogues, books, etc.

IX. EXCLUSION OF A PARTICIPANT

A participant who has registered with incorrect data, manipulates data, uses improper means or has breached the terms of participation in another way, can be excluded from the BMW Sports Trophy Drivers' Competition or BMW Sports Trophy Team Competition by the organiser. The same applies to participants who use banned means or achieve an advantage through manipulation in other ways.

X. MISCELLANEOUS

The organiser expects fair sportsmanship from all drivers and teams. Any behaviour that has a disadvantageous effect on the BMW brand name shall result in disqualification from the BMW Sports Trophy Drivers' Competition and BMW Sports Trophy Team Competition.

Should the participant wish to correct individual results visible on the online portal of the BMW Sports Trophy Drivers' Competition and BMW Sports Trophy Team Competition, he/she must send a query to this effect to the organiser. This may only be done by sending an E-mail to bmwsportstrophy@eila.de or by using the contact form on the online portal. The results in question will then be checked again. In order to have a recorded result checked again, it is necessary to submit an official result from the racing event in question.

The organiser can be informed of corrections, as detailed above, up to 10th November 2023. Any requests for changes to be made after this date can no longer be taken into consideration for the 2022/2023 scoring period.

The decisions made by the organiser concerning all matters pertaining to the BMW Sports Trophy Drivers' Competition and BMW Sports Trophy Team Competition are final. The organiser is authorised to cancel the BMW Sports Trophy Drivers' Competition and BMW Sports Trophy Team Competition at any time, without prior notice, and without specifying reasons. No obligation can be derived from them.

The organiser reserves the right to change the regulations in this document at any time without reason, or to cancel them without notice. Should individual regulations in these terms of participation become invalid, the remaining regulations are still valid.

There is no legal right of appeal.
